# The TRINSIAN

LEARNING IS FOR LIFE

Dear Parents,

*It gives us great pleasure to present our first monthly newsletter for this academic year. Not just because it is already filled with activities, but also because it marks our first student-led newsletter—catchy, fun and infused with all their vibrant energy and creativity. Our creative team has conceptualized, laid out, and designed all the content, and will do so henceforth. It is time they showcased for themselves all their many activities and accolades.*

*We have thematic assemblies lined up, new preschools opening, a host of clubs offered, Broadway themes announced, Spectra preparations underway, and students in Germany for their exchange programme. We are excited for 2017-18 and hope you're just as geared as we are for a wonderful year ahead. Happy Reading!*
