# TRINS ON TUESDAY

**From the Principal's Desk :** New year and new beginnings : over the past week we have welcomed back to school TRINS students from KG1 to Grade 12 (our ELC classes having commenced last month). The start of an academic year is a time of new beginnings - each child is in a new class with new challenges and opportunities ahead that will nurture personal growth. As well as building on what has gone before, there will be novelty: this will be experienced both in the classroom and through the broad range of co-curricular activities we provide for students at TRINS.

New year and new faces: we welcome students who are new to TRINS and their parents. I am pleased that you have chosen TRINS as the school for your child and regard it as a great responsibility to provide the all-round education that you expect your child to receive. I believe that you will have a positive relationship with the school founded on your child's enjoyment of their experience and the success they achieve. We also welcome new teachers to TRINS who bring their particular talents to our institution.

But much remains familiar! TRINS is driven by a common desire to constantly improve. In striving to achieve this, we celebrate the values we have held true since the school's opening in 2003. Next week we will mark the twentieth anniversary of this occasion and renew our commitment to empowering young people to become global leaders. The results achieved by our 2023 IBDP students are a tangible expression of this and I would like to congratulate them all on their accomplishments in the board examinations.

## DP Results-Batch of 2023

The IBDP Batch of 2023 received their Diploma results on Thursday, 6th July, marking the completion of the two-year learning journey. We are proud of all our IBDP students for a great performance, those awarded the full Diploma achieving an average of 32 against the global average of 30.2. Eleven of these twenty scored 33 or above, with seven 7s (the top mark possible for a subject) and twenty three 6s. Our school toppers are Siddhartha Chakilam (39 points); Mathew Thomas (36 points) and Pooja Gopal (35 points).

This is an opportunity to celebrate the hard work put in by our students who had experienced the many challenges through the Covid years. TRINS is proud of all the DP students who have reached this milestone. This would not have been possible without the unstinting effort and dedication of our teachers, led by Ms. Rachel Jacob (DPC), and the support of the whole school community

## IC3 Regional Forum - coming to TRINS!

The IC3 Regional Forums are educational, community-centred forums held in-person across more than 10 countries. Trivandrum International School is delighted to be hosting an IC3 Regional Forum on Saturday, 22nd July 2023. This is an event aimed at school leaders, school counsellors and teachers who wish to learn more about how to support their students in making informed decisions about the future. There will also be a university fair for TRINS students and parents - an outstanding opportunity to interact with university representatives and find out more about what these leading institutions have to offer. Leading institutions, including Ashoka, Ahmedabad and FLAME universities and BITS Law School from India, Monash University from Australia, Bristol and Sheffield universities from the UK and – from the USA – the universities of Arizona, Delaware and Vermont, will be in attendance.

## 22 July 2023 • Thiruvananthapuram

### Hosted by Trivandrum International School

# TRINS ON TUESDAY

The Early and Primary Years have started the new academic year with renewed enthusiasm and vigour. The staff and students are eagerly looking forward to an enriching year ahead. The first assembly was conducted on Wednesday, 5th July with both staff and student introductions.

Orientations for grades 6,7 were conducted this week. Grade 8 parents will come in on the 27th July for the personal project mentor meetings. Hostel orientation took place at 4pm, 7th July. Ms. Rema Pillai led this session.

## Staff Achievements

Ms Girija attended a three-day International Conference on Comprehensive Education for Children with Special Needs organised by Different Art Center in association with Adelphi University, New York.
