

## Principal's message

Mr. Richard Hillebrand

The events that have unfolded in Wayanad district during the past week and the accompanying loss of life are shocking and heart-wrenching. Our sympathy is with those who have suffered loss and our thoughts are with the victims as they face the challenges of recovery. Ms. Sapnu, the Executive Director of the TRINS Group of schools, has written to parents about how the school community can provide an immediate response through the Chief Minister's fund. This disaster will present an ongoing need within the state that the school will continue to monitor to identify the possibility of how further assistance might best be provided.
